MEMORANDUM FOR: Deputy to the DCI for
National Intelligence Programs Evaluation

SUBJECT : DD/S&T Career Development Course #2

1. As part of a program directed toward the long term career development of a limited number of carefully selected DD/S&T employees, the career development program is being conducted for another year. The basic concept is to select a small group of employees whose aptitudes and abilities point toward an eventual broad senior administrative capability and then give them a real look at the varied activities in which DD/S&T is involved. Inasmuch as many of our interests are related in one fashion or another to the intelligence collection superstructure, it is believed that a presentation by you or a member of your Staff on the subject, "The Intelligence Collection Superstructure" (USIB, COMOR, NRO, IRS, EXCOM, etc.), would be of particular value in this training effort.
2. Mr. Thomas A. Parrott of your Staff gave the presentation to last year's class. We would welcome his participation again. In any event we propose to reserve the morning of Tuesday, 27 February 1968, from 0900 to 1200 for the presentation.
3. A list of the students in the Course and a brief outline of the CDC #2 are attached for your information.
4. I feel that a presentation on the subject mentioned can make a significant contribution to the over-all training effort and thus your assistance would be appreciated.

CARL E. DUCKETT
Deputy Director
for
Science and Technology
